

Epic Edge+[®]

by TRANSACT[®]

THE NEXT EVOLUTION IN TITO PRINTING

Epic Edge+[®] delivers the highest print resolution in the industry with true 300 dpi—producing crisp, scannable tickets that improve validation speed and reduce reprints. Built for nonstop performance, it also features lightning-fast firmware updates, support for multiple ticket sizes, and a universal interface board that fits seamlessly into any game. Built on the award-winning design legacy of the Epic 950[®].

FEATURES

UPDATE SMARTER, NOT SLOWER

Load firmware and graphics fast with USB or Micro SD—no laptop, no downtime.

SMART SWAPS

Replace printers without powering down or unplugging—minimize downtime and keep games running.

TICKETBURST TECHNOLOGY

Prints and cuts before presenting.

COLOR-CODED PRECISION

Epic Edge+ and Epic 950 use distinct chassis rails, making it easy to install the right printer in the right game.

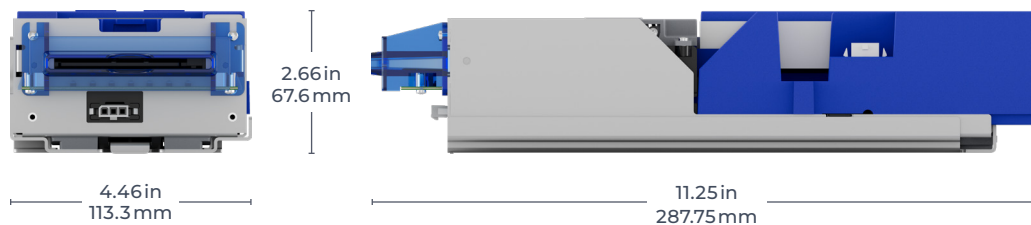

ONE PORT. ENDLESS POSSIBILITIES.

Dedicated interface for Epicentral[®], bonusing, and eTITO integration..

INTERFACE

USB and Serial

SPECIFICATIONS

Resolution	300 dpi
Print Width	2.44 in/62 mm
Print Speed	5 in/125 mm per second
Dimensions	4.46 W x 11.25 D x 2.66 H (in)/113.3 W x 285.75 D x 67.6 H (mm)
Weight	3.8 lbs/1.7 Kg
Interface	Single Board: USB, Serial
Power Supply	24 VDC: 2.2 Amps Maximum
Operating Temperature	41 to 140° F/5 to 60° C at 10 to 90% RH
Storage Temperature	14 to 122° F/-10 to 50° C at 5 to 90% RH
Print Head Life	43.45 miles/70 km
Memory Capacity	8MB RAM and 4MB Flash for printer operations

BENEFITS

- Epic Edge+® supports fast firmware and graphics updates via USB or Micro SD—no laptop or power-down required.
- TicketBurst reduces jams and prevents player interference by printing and cutting tickets before presenting. This ensures smoother operation and keeps games running without interruption.
- ServerPort™ supports fast, reliable integration with Epicentral® and other bonusing or eTITO systems through a single connection—reducing complexity and helping centralize system management.
